

CERTIFIED EMPLOYEE TRAINING PROGRAM

Spring/Summer 2019 Course Schedule

CETP: An Effective Resource for Successful Propane Business Managers

The Certified Employee Training Program (CETP) is a great resource for propane companies interested in improving the safety of their employees and customers, increasing productivity and employee morale, and adhering to federal and state regulations. CETP helps propane companies serve the communities they operate in by providing up-to-date, task-specific technical training that eliminates guesswork and empowers employees to perform their jobs confidently, knowledgeably and safely.

ONLINE-BASED TRAINING to be held in conjunction with classroom training!

Once you have completed and returned the registration form to the WPGA office, you will receive an email containing a registration link, login and password. **The online training MUST be completed before the registrant attends the morning class and afternoon testing.** Each student **MUST provide an individual email address** (either business or personal). Students will receive the class book and codebook (if ordered) the day of the review and testing class.

PLEASE NOTE: To avoid cancellation of a course, a minimum of 12 students must be registered three weeks prior to the start of each class.

BASIC PRINCIPLES AND PRACTICES

This course **MUST** be completed to receive certification in any other CETP course

July 15, Sacramento

July 23, Fresno

July 30, Rancho Cucamonga

Basic Principles and Practices of Propane is an "entry level" course that provides pre-requisite instruction about propane's physical and combustion properties, how propane is produced and transported and will aid in preparing for NPGA's CETP certification. Basic Principles and Practices of Propane is an essential tool for ensuring employee safety and continuing success.

The topics covered are: Introduction to the Basic Principles and Practices of Propane; Propane Customer Applications and Customer Service; Sources and Physical Properties of Propane; Odorants and Service Interruptions; Complete and Incomplete Combustion Characteristics; Standards, Regulations, and Safety; Bulk Plants; and DOT Cylinders, Propane Piping, and Residential Systems.

Fee \$20 Underwritten with PERC Rebate Funds

Required NFPA 54, 2015 edition/NFPA 58, 2017 edition

BOBTAIL/CYLINDER DELIVERY OPERATIONS

July 16-17, Sacramento

July 24-25, Fresno

July 31-August 1, Rancho Cucamonga

Propane Delivery includes inspecting, maintaining and operating propane delivery vehicles, filling propane storage containers, and making customer deliveries of propane. This course is primarily designed to train propane delivery personnel who operate cylinder delivery vehicles and provides information, practices, and procedures that support many general delivery tasks.

Bobtail Delivery Operations course provides information for drivers who operate commercial motor vehicles to deliver propane. This course also covers: Bobtail equipment and systems; explains a bobtail's basic equipment and systems, including the cargo tank, gauges, valves, pumps, meters, delivery hoses and emergency discharge control equipment; presents detailed procedures for safely loading a bobtail using the plant pump; discusses DOT requirements for bobtail inspections; and reviews the features and installation requirements of ASME tanks at customer locations

Fee \$30 Underwritten with PERC Rebate Funds

Required NFPA 54, 2015 edition/NFPA 58, 2017 edition

DESIGNING & INSTALLING EXTERIOR VAPOR DISTRIBUTION SYSTEMS

August 27-28, Sacramento

September 10-11, Fresno

September 17-18, Rancho Cucamonga

Primarily designed to train employees who use and operate a dispenser, this course includes information on dispenser tank valves, fittings and locations; and installing, start up and shut down procedures of a dispenser transfer systems.

The topics covered are: Dispenser application operating requirements and proper location, types of containers, dispenser tank size and orientation, dispenser component selection, installation requirements, provisions for vertical tanks, and electrical supply specifications.

Fee \$220/Member \$420/Non-Member

Required NFPA 54, 2015 edition/NFPA 58, 2017 edition

2019 CETP COURSE REGISTRATION FORM

Name: _____ Email* _____

Company Name: _____ Phone: _____

Company Address: _____ City/State/Zip: _____

*Each student **MUST** provide their **email address** to receive the online training portion of their course.
